

(a) known surface, intrinsic-linear label

- exact $\|H^S\|$
- -■- - decoder $\|H^S\|$
- ◆— exact $\|\langle w_N, \mathbb{I} \rangle\|$ (= sphere term $\sqrt{d} |\hat{y} - b_0|$ here)

(b) galaxies, decoder

- exact $\|\Delta\|$ (Hessian mismatch)
- decoder $\|H^S\|$
- decoder shape $\|\langle w_S, \mathbb{I}^S \rangle\|$
- △— sphere term $\sqrt{d} |\hat{y} - b_0|$
