

(a) known surface, intrinsic-linear label

- exact $\|H^S\|$
- - decoder $\|H^S\|$
- exact $\|\langle w_N, l \rangle\|$ (here the sphere term $\sqrt{d} |\hat{y} - b_0|$)

(b) galaxies, decoder

- exact $\|\Delta\|$ (Hessian mismatch)
- decoder $\|H^S\|$
- decoder $\|\langle w_N, l \rangle\|$ (shape)
- △ sphere term $\sqrt{d} |\hat{y} - b_0|$
